**Appreciation to attend
the Innovative Research for Biosis-Abiosis Intelligent Interface Symposium**

February 5, 2014

Dear Colleagues,

Thank you very much for your participation at the Innovative Research for Biosis-Abiosis Intelligent Interface Symposium (The 5th International Symposium for Interface Oral Health Science) held in Sendai on January 20-21, 2014.

We had the total number of 90 poster presentations, in addition to 4 symposium sessions, in the symposium, with over 200 participants. Out of 37 poster award nominees, we selected 9 winners, who presented a high quality of research with active and constructive verbal communication in English.

We received many words of praise, so we believe that this symposium was successful. We are sure that this success is attributed to your contribution to the symposium. One of outcomes of this symposium is an English monograph based on the symposium sessions and poster presentation awards, which will be published around the end of this year. In a separate mail, we will inform you about the details of the monograph.

Thank you again for your valuable contribution to the symposium, and we look forward to seeing you again in the 6th International Symposium for Interface Oral Health Science, here in Sendai.

Sincerely yours,

A handwritten signature in black ink, reading "K. Sasaki".

Keiichi SASAKI

President, the Innovative Research for Biosis-Abiosis Intelligent Interface Symposium

President, the 5th International Symposium for Interface Oral Health Science
